- Graduated with honors

San Diego Mesa College - San Diego, CA

2017-2019

- F&D Major with a minor in business
- Enrolled in honors courses
- Maintained GPA above 3.6

UCSD - San Diego, CA

- Currently enrolled in computer science program, set to graduate in March 2022.
-

## **Work History:**

### **Internships 2016-2017:**

- **Tri-City Pediatrics Clinic - San Diego CA (2016)** - Followed pediatric physician, Dr. Gregor Andree, around the office and observed/commented on/and learned from his daily routine and tasks. These included check-ups with patients, looking at very-ill patients immediately who had just come in, and going over symptoms, diagnoses, and even the paperwork and computer-work involved in healthcare. I also spent a fair amount of time with Family Health in Linda Vista, doing the same shadowing duties in the same sort of pediatric clinic environment.
- **Bellatrix Pharmaceuticals - Sorrento Valley (2016-17)** - Worked alongside laboratory techs to learn about the process of researching, producing, and selling pharmaceuticals in the global healthcare industry. Knowledge learned in class was exercised when running DNA samples, learning about different strains of viruses, etc. We were permitted hands-on participation.
- **Department of Veterans Affairs - La Jolla (2017)** - Shadowed doctors and nurses and helped them with document filing. (I received a letter of recommendation for my services here, available upon request as well). The more traumatic of my internships, we sat-in for surgeries, shadowed bedside check-ups, looked at very-ill or unwell patients, learned about the types of diseases that are more unique to older, and under-privileged people. A very rewarding experience.
- **ListenSD - San Diego Music Magazine/Blog/Social Media Page (2020- )** Assisted in marketing and engagement, trying to get more and more people involved, clicking on links, going to events, etc. I attended musical events in San Diego as a writer and photographer and gained experience in journalism and marketing. When covid happened there was obviously very, very, little to do with no events happening, but now that things are opening again there should be events to cover again.

---

### **Jobs:**

- **Shake Shack UTC. September 2017-March 2018** A very fitting first job, I received lots of experience with hospitality, guest-relations, food prep, cleaning, kitchen, and back of the

housework, and running a business. I gained lots of experience working in the front and back of house. What I enjoyed the most was that the company had a fine dining approach to fast food, encouraging better relations with the guests than you might see at your average fast food place. Their address is 4309 La Jolla Village Dr Suite 2350, San Diego, CA 92122 and their contact is (619) 391-1570. The name of my last supervisor is Jacob Dejong.

- **Chick-Fil-A Balboa. (March 2018-February 2019):** I moved on from Shake Shack here because they were close to my house and paying more. In addition to what I had learned from working at shake shack, I gained additional service industry experience that included hospitality, drive through, desserts, serving, bagging, cleaning, assisting in the kitchen, and keeping the establishment well-maintained.. My last supervisor was Glenn Murdoch, who owns and operates the store.
- **Sushi Freak Linda Vista. (February 2019-May 2019)** I furthered my food service and kitchen-working experience at this sushi restaurant where I performed all of the duties I'd previously been used to, this time with more leadership responsibility. Ultimately I had to leave that job as well as school due to a traumatic injury that was followed by surgery. Their address is 5175 Linda Vista Rd #105, San Diego, CA 92110 and their contact is (619) 296-2500. The name of my last supervisor is Jorge or (Tito).
- **LineLeap. (January 2019-February 2020)** My job here was basically marketing, to be a sales rep for a new app that was launching. The app centered around bars/parties and partnered with venues to give users discounts on drinks and food. The function of the app was for users to prepay for their drinks/entry to the bar, and therefore skip the lines that so often showed up at many of the popular bars around town. Unfortunately, the hours got cut short when Covid-19 hit, and ultimately the company went bankrupt.

---

**Other Professional Summary/notable information:**

- Proficient in social media:
  - Managed multiple social media accounts for numerous brands and companies other than my own:

- The lead of marketing for local cannabis companies due to privacy reasons must rename unnamed
- In addition to working in the marketing departments, I have experience with graphic design and I am independently studying fashion/online marketing currently alongside computer science.
- Knowledgeable on how to engage with an audience for the best outcomes and make business accounts grow with active followers.
- Creative Director, co-founder for TSH Co. ( San Diego-based startup and art collective)
